HIGHWAY FRONTAGE GATEWAY PLAN

Town Council approved the newly proposed design concept of the Town's frontage, as presented by Brad MacDonald of Scheffer Andrew. The purpose of the plan is to ensure that the Town of Bon Accord's culture, heritage, unique small town character, and warm-heartedness is not only preserved amidst future development and re-development, but strengthened. A significant component of the design concept is the use of natural, environmentally friendly materials through landscaping; both as major design elements and as complimentary features. Community heritage themes have been incorporated throughout the design concept; Bon Accord's agricultural and Scottish heritage has inspired many of the design features. The concept design report is available on the Town's website (www.bonaccord.ca) for review.

NEW EDUCATIONAL AND ENVIRONMENTAL EVENT FOR BON ACCORD

Summer Skies Festival comes to Bon Accord. The festival is a 31 hour marathon event that will commence on June 29, with an introduction to the sky and space science, and will wrap up with a fireworks display at 12:01 a.m. on July 1, kicking off CANADA DAY.

This initiative is designed to promote Bon Accord as a town that appreciates its place in the rural environment it resides in and leverage its natural amenities to promote culture, education and its desire to attract business with the same values. The event encompasses three themes:

- Environment – recognition of the natural rural environment
- Education – provide an educational experience to residents and visitors
- Culture – promotion of art and culture which is abundant in Bon Accord and the region
