

Fully Automated Program, PLEASE READ

Stand-Stone Waste Services Ltd. uses a fully automated collection system. Drivers stay in the truck and use a mechanical arm to pick up and empty the carts; **driver will NOT get out and collect any items outside of the carts, move extra items away from your cart, or move your cart if you placed it in a manner in which it cannot be dumped.**

- Put your solid waste in disposable bags or boxes, tied or taped together before placing it in your cart. This keeps items from blowing away when the cart is emptied.
- Do not overfill your cart, the lid must close and be closed to dump it.
- Place the carts on the street or in the gutter.
- Place the cart so that the short metal bar on the front faces the street and the handle is towards your house on a level surface prior to pick-up, cart cannot be sideways or backwards.
- Avoid placing the cart near low hanging tree branches or overhead wires.
- Place the cart at least 3 feet away from permanent structures (mailboxes, walls, lamp posts, utility poles, vehicles, etc.)

NEW ORGANICS CART will be delivered at a later date.. Do not place any bags in this cart, **Organic Material Only.** The driver cannot STOP ALL TRUCK OPERATIONS and clean out the foreign material. The time/invoice for the cleanout process will be forwarded, along with your address, to the Municipal Office. Your Municipality may choose to add this cost to your utility bill, so **please... only Organic Material.**

Place your cart 3 to 6 feet away from your Blue Bag. Blue Bags should be placed behind be placed behind the carts. No items can be within 3 feet of your cart or the truck's grab arm cannot grab the cart.

Nothing can be between the cart and the street.

Place your Organics Cart beside your Waste cart, about 4 feet apart works best.

Do

Place recycle more than 3 feet away from cart → or 3 feet behind cart.

Do

Place 4'-6' apart.

Do

Do Not

We can't dump this cart, → don't place items in front or close to cart.
